Dear Henrik

**Research grant – Understanding plant/insect interactions**

I am pleased to confirm my earlier email that providing you incorporate my trustees' suggestions, they agree to offer a grant of £5000 in each of three years for Zedi Gao's PhD research into better understanding of plant insect interactions to protect agricultural crops.

For the purposes of my records, could you please resubmit your application form with the additional information requested.

The grant may be claimed when the updated form is received and the student has begun the research. Please provide me with annual updates and a report when the project is completed. In the event of default, the grant may be withdrawn.

With best wishes.

Yours sincerely
